A3 PUNCHING AND BINDING MACHINE MEGASTAR: 7 TOOLS IN 1 !!!

MEGASTAR

TEM352

Module A: Electric punching and binding machine
- High capacity electric punching and binding tools for massive punching and binding tasks for all your document binding needs in formats 80 g/m².
- MEGASTAR has been specially developed for all professional volume and specific binding requirements, and offers exceptional performance for gains in productivity and efficiency.
- Suitable for a wide variety of paper sizes (up to 42 cm), the MEGASTAR offers a choice amongst 7 different binding systems, as well as the necessary features and functions required for intensive use. It is a perfect partner for reprographic centers, and is equipped with a rebinding unit for perfect alignment and punching of oversized documents or the centering of non-standard sizes.
- The punching and binding tools for office use can be used either as single units or as two working stations.
- On the punching unit, the punching margin can be adjusted. It guarantees improved strength of bound sheets, essential for large documents.
- Adjustable wire closing depth for perfect rounded effect.
- Releasable punching dies that enable the centering and punching of paper sizes.
- The punching space opened on both sides allows perforation of sizes over than 42 cm and an additional stop for punching standard document sizes or the centering of non-standardized paper.
- The punching elements can be opened on both sides.
- Adjustable punching margin gives improved strength to bound sheets.
- The punching space opened on both sides allows perforation of sizes over than 42 cm.
- The punching elements can be opened on both sides.

RELEASABLE PUNCHING DIE

5 - 450 sheets
- Adjustable punching margin gives improved strength to bound sheets.
- The punching space opened on both sides allows perforation of sizes over than 42 cm.
- The punching elements can be opened on both sides.

SMART ENGINEERING

- Vertical punching: the sheets are automatically centered and correctly aligned.
- The punching space opened on both sides allows perforation of sizes over than 42 cm.
- Releasable dies allowing perfect centering for the perforation of any size of paper.
- Adjustable punching margin gives improved strength to bound sheets.
- Adjustable opening of plastic combs, essential for mass binding.
- Adjustable wire closing depth for perfect rounded effect.
- Stop for punching standard document sizes or the centering of non-standardized paper.

MEGASTAR's main features:

- Vertical punching: the sheets are automatically centered and correctly aligned.
- The punching space opened on both sides allows perforation of sizes over than 42 cm.
- Releasable dies allowing perfect centering for the perforation of any size of paper.
- Adjustable punching margin gives improved strength to bound sheets.
- Adjustable opening of plastic combs, essential for mass binding.
- Adjustable wire closing depth for perfect rounded effect.
