TEM230

Modular A3 electric punching and binding machine

High capacity electric punching and binding machine with modular punching and binding tools for all your document binding needs in formats up to 42 cm.

Megastar has been specially developed for all professional high volume and specific binding requirements, and offers exceptional performance for gains in productivity and efficiency.

Suitable for a wide variety of paper sizes up to 42 cm, the Megastar offers a choice amongst 7 different binding systems, as well as all the necessary features and functions required for intensive use. It is a perfect parnter for reprographic centers and, or integrated printers, and can be used either as one unit or in two working stations to increase efficiency and productivity by separating the binding unit from the punching unit.

Special features of the machine are:

A **powerful engine** and a sturdy structure that allow punching of 30 to 35 sheets A4 80g at a time for comb binding.

Adjustable jogger stop for punching standard document sizes or the centering of nonstandard sizes.

The **centralized control panel** allows pedal or digital punching control as well as reverse gear in the event of blockages or overloading of

Releasable punching dies that enable the centering and punching of all paper sizes.

Oversized documents (above 42 cm) can be punched as the punching elements are opened on both sides

A unique feature for electric punching machines with interchangeable tools, the punching margin can be adjusted. It guarantees improved strength of bound sheets, essential for large documents.

Single die A3 electric punching and binding machine for metal wire

Designed and developed for intensive use, the new generation SUPERSTAR is a high performance professional electric punching machine for wire binding.

It can bind up to A3 size.

With SUPERSTAR, you can obtain exceptional performance to increase productivity and efficiency. SUPERSTAR is the ideal machine for copy-shop, integrated printers workshops, and any professional who is looking for high quality document presentation.

SUPERSTAR® Wire binding pitch 3:1" SUPERSTAR® Wire binding pitch 2:1"

- binds 2 to 250 sheets 80g
- up to an A3 format
- punches 30 sheets A4 80g at a time
 - punches 30 sheets A4 80g at a time

Machine's main features:

- Vertical punching: the sheets are automatically centered and correctly aligned
- The punching space opened on both sides allows perforation of sizes over than 42 cm

• binds 2 to 120 sheets 80g

• up to an A3 format

- Releasable dies allowing perfect centering for the perforation of any size of paper
- Adjustable punching margin gives improved strength to bound sheets
- Adjustable opening of plastic combs, essential for mass binding
- Adjustable wire closing depth for perfect rounded effect

SUPERSTAR PLASTIC COMBS

Single die A3 electric punching and binding machine for plastic combs

Designed and developed for intensive use, the new generation SUPERSTAR® is a high performance professional electric punching machine for plastic comb binding. SUPERSTAR® is the ideal model for copy-shop, integrated printers workshops, and any professional who is looking for high quality document presentation.

SUPERSTAR® Plastic comb binding

- binds 2 to 450 sheets 80 g
- up to an A3 format
- punches 35 sheets A4 80 g at a time

Machine's main features:

- Vertical punching: the sheets are automatically centered and correctly aligned
- The punching space opened on both sides allows perforation of sizes over than 42cm
- Releasable dies allowing perfect centering for the perforation of any size of paper
- Adjustable punching margin gives improved strength to bound sheets
- Adjustable opening of plastic combs, essential for mass binding
- Adjustable wire closing depth for perfect rounded effect
